

## April 2019 students (two-year course) welcome party for new students

A welcome party for new students was held on April 16, and it was the first exchange between current students and new students.

They introduced each other and some student demonstrated his/her country-specific songs. They had a good time.

The scene that new students were interacting with their seniors regardless of their nationalities in English or Japanese in a single word made us smile.

The new students are going to share the same room as the seniors of different nationalities in their dormitory, which will bring a positive impact.

We would like to watch over them warmly.
